Sudeti sviesas, ideti sviesa i kabina, ir "ideti" ant maketo i depo arba ant begiu prie stoties, sudeti figureles salia  
,mechanikus ar personala ir pakankamai neblogai atrodys uz tokia kaina.

UÅ¼ viska kartu praÅ¼iau 170eur. DerÄ—tis galima.

Atsirado mano kolekcijoje antras Marklin 29752 rinkinys, tad parduodu Å¼itÄ—..., dalimis.

Lokomotyvas su dekoderiu, dega Å¼iviesos, rieda puikiai. Valdymas IR spinduliais, pulto galimybiÅ¼ nesiaiÅ¼kinau, bet yra instrukcija. KartoniniÅ¼ konteineriÅ¼ nÄ—ra, o jiems skirtas vagonas turi defektÅ¼.

Kartu parduodu Marklin M sistemos 165vnt Ä—vairÅ¼ bÄ—giÅ¼, 8vnt ieÅ¼imÅ¼ ir sÄ—...nkirtÅ¼. Kitaip sakant, vien tiesiÅ¼ bÄ—giÅ¼ yr  
metrai...

Domina mainai Ä— HO ir TT mastelio lokomotyvus, vagonus, pastatus, automobilius. Gamintojas nÄ—ra svarbus.
